Innovative technologies available for commercialization

National Research Development Corporation (NRDC) is engaged in the development, promotion and transfer of technologies emanating from various national R&D institutions/universities in wide areas like: Agro & Food processing, Chemical, Life Sciences, Mechanical, Electrical & Electronics, etc. NRDC has the largest repository of Indian technologies and licensed about 2000 technologies through execution of more than 5000 licence agreements. Some of innovative technologies developed for utilization of Minor Forest Produces (MFP) through TRIFED's R&D initiatives are now available with NRDC for licensing having great potential.

- **Tam Ras** : Highly nutritious and anti-oxidant squash made of Mahua flower juice in combination with Amla and Tamarind.
- **Mahua Tamarind Chutney** : Highly nutritious chutney made of Mahua and Tamarind.
- **Mahua Tamarind Candy** : Delicious Candy with excellent Vitamin C and anti-oxidant properties prepared from Mahua and Tamarind.
- **Mahua Based Nutrabeverage** : Anti-oxidant beverage from combination of mahua flower juice and conventional fruit having alcohol content within 5%.
- **SAL leaves Degreasing and Cleaning Solution** : Environment friendly and rust-proof degreasing and cleaning solution prepared from SAL leaves extract.
- **Personal Care Products from Karanja (Pongamia)**: Excellent personal care products from Karanj Oil - Cold Creame, Sun cream, lotion.
- **Hybrid Dryer run on bio-mass fuel and solar energy**: Low cost, sustainable multipurpose hybrid dryer for drying of Minor Forest Produce.
