Amendment No. 6 Dated 14.05.2018

Clarification regarding Measurement of Thickness of Sole

With reference to the Tender Notification No./Fed/Shoes/2017/I Dated 09.11.2017 for e-Procurement of Gents Walking Canvas Shoes, the clarification on measurement of Thickness of sole **Table 1: Specification of Soling material** mentioned on Page No. 17 of published tender document is as given below.

For measurement, the whole shoe is cut exactly at the center and the measurements are carried out in the locations indicated in the attached figure. The measurements are carried out after cutting the shoe into half so as to avoid the inclusion of wall thickness as a part of the heel / waist / forepart measurements.

Method of sole thickness measurements (forepart, waist and heel)
